

Love's Legacy

A compassionate digital time capsule for leaving messages, photos, and memories for loved ones.

Our love and memories deserve to bridge the passage of time.

Love's Legacy is a warm, secure digital space designed for those preparing to say goodbye. Our mission is to use modern technology to help them:

Share Words of Love: Craft warm letters and preserve cherished memories.

Preserve Precious Moments: Upload and organize a lifetime of beautiful photos.

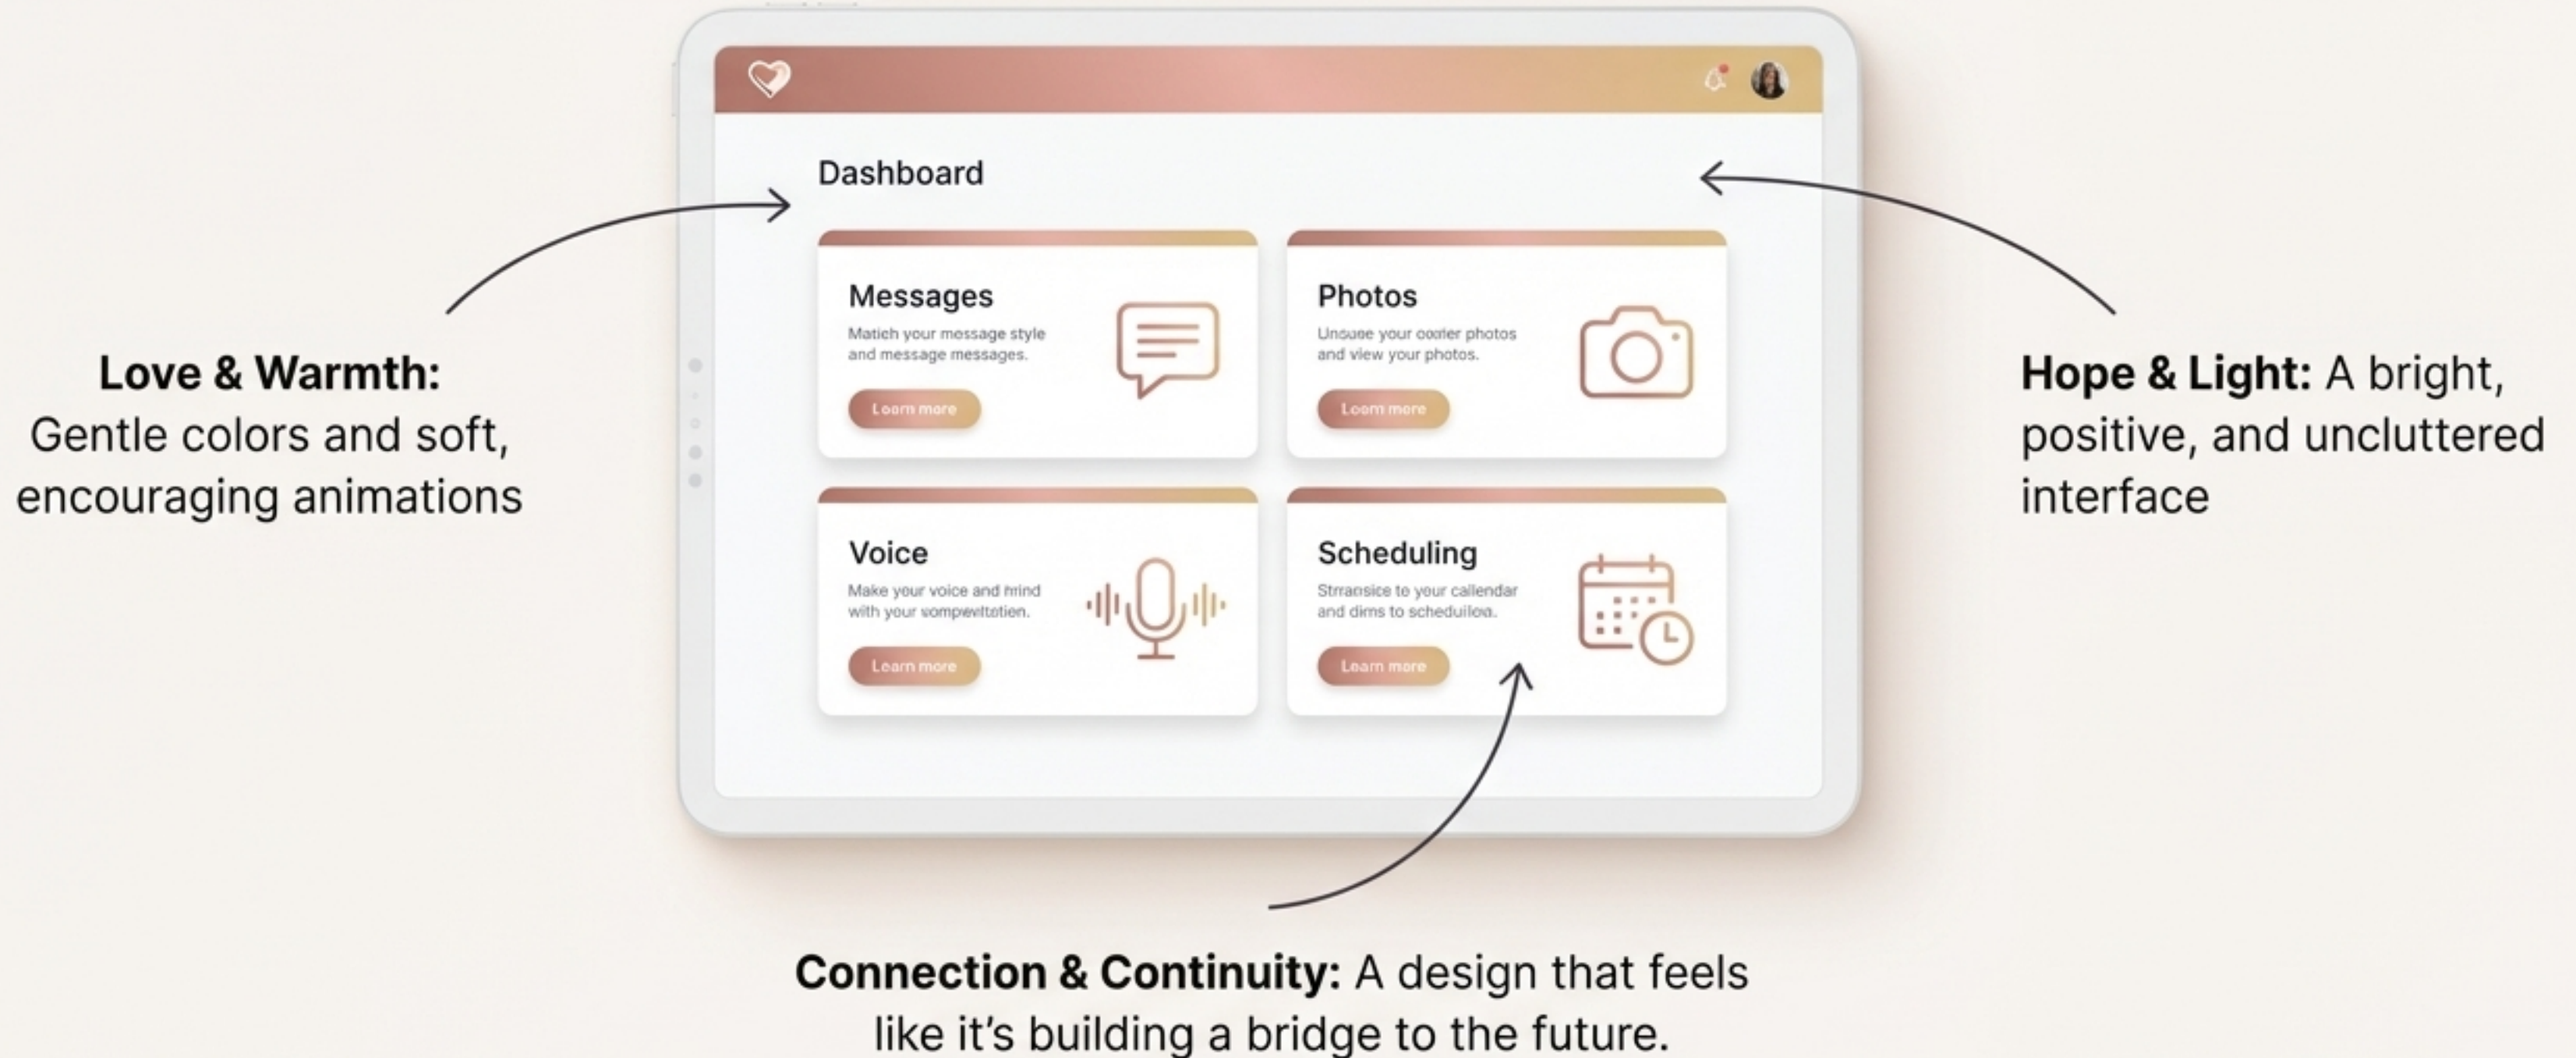

Record Your True Voice: Leave behind personal stories and heartfelt voice messages.

Schedule a Future Connection: Arrange for these capsules to be delivered on important future dates.

We designed a caring interface, where technology serves compassion.

Four Pillars to Preserve a Complete Legacy

Messages of Love

Write warm messages and precious memories using a rich text editor for long-form stories.

Photo Memories

Easily upload and caption your most cherished photos in a beautiful, interactive gallery.

A Voice to Remember

Record your voice directly in the browser and let our integrated AI transcribe it for them.

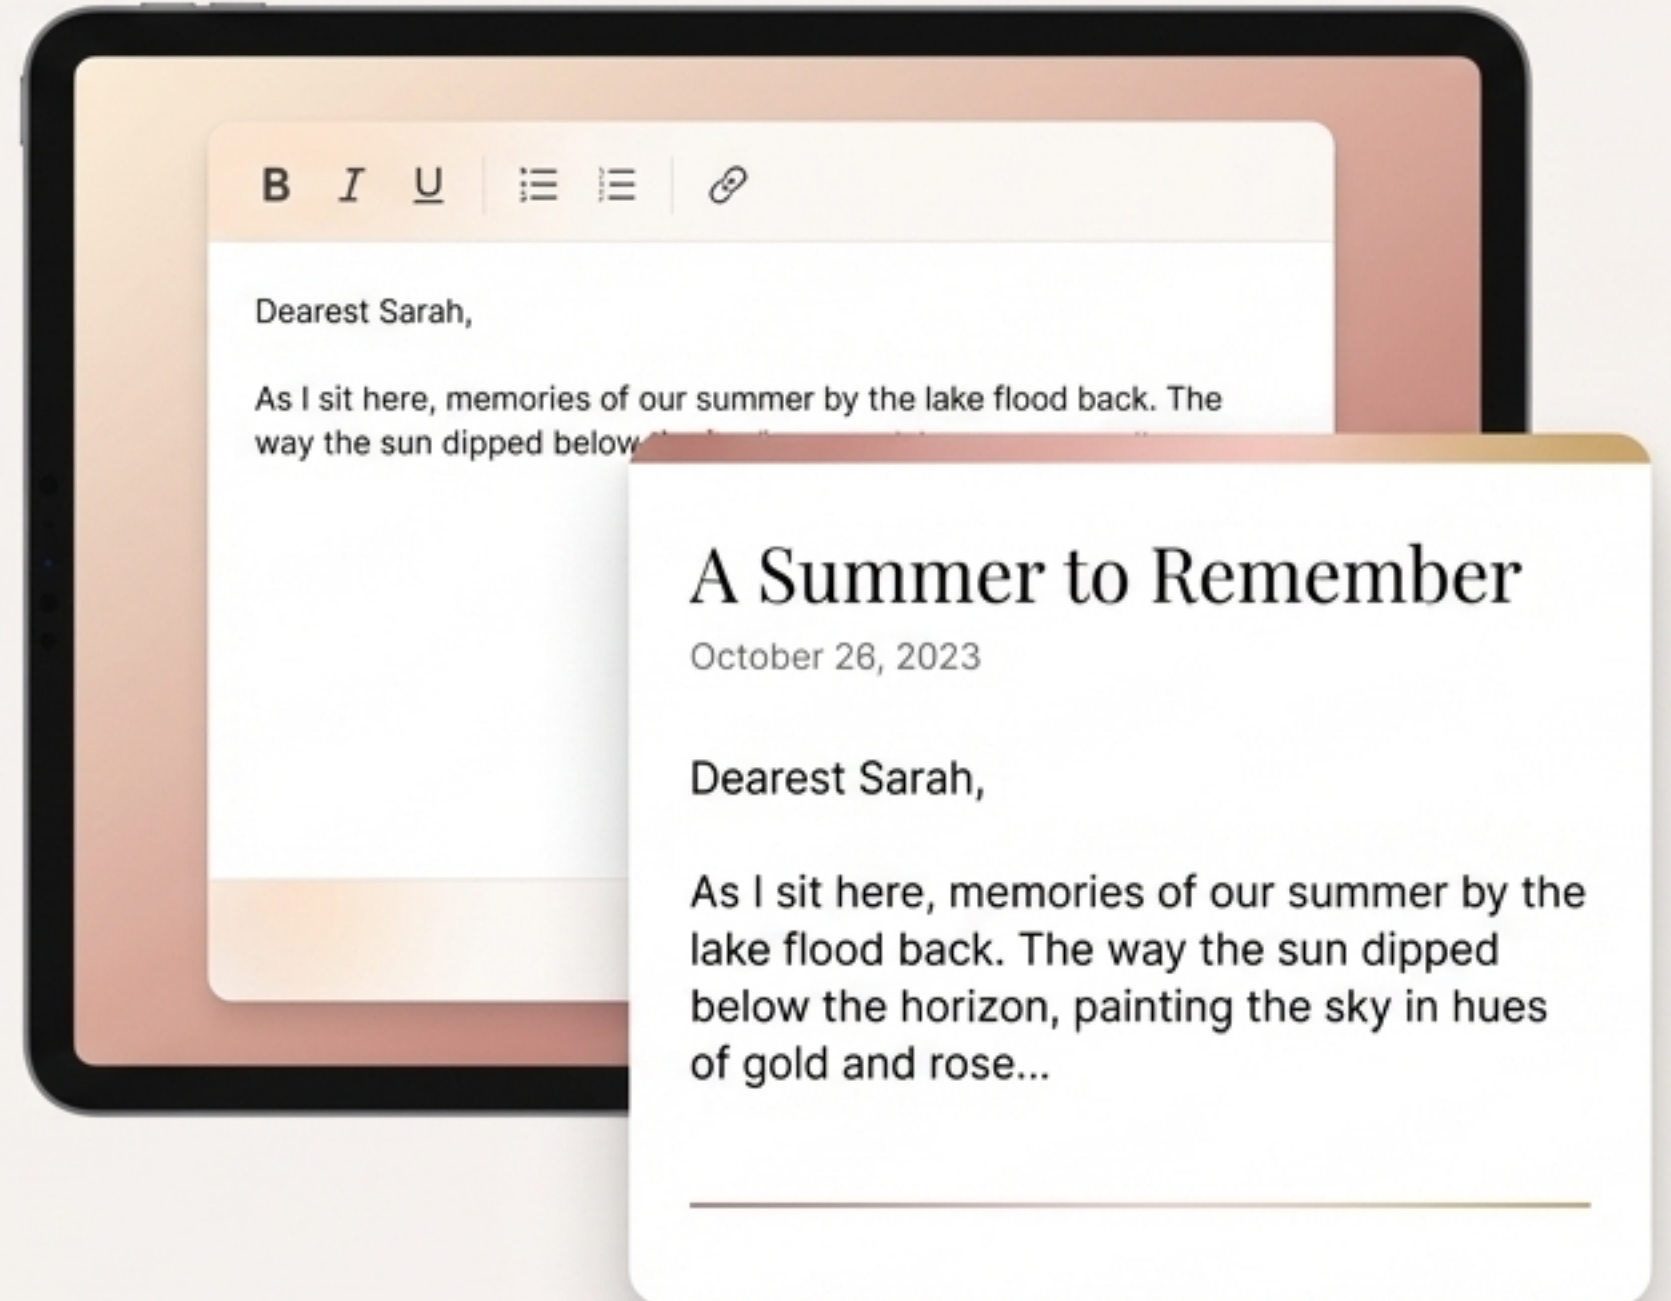

A Future Delivery

Schedule your capsules for future moments and share them through a simple, secure link.

Pen the Words That Matter Most, Beautifully

- ****Rich Text Editor****: Support for long, heartfelt articles and memories.
- ****Local Storage****: Draft, edit, and delete messages with privacy and confidence.
- ****Elegant Presentation****: Messages are displayed as beautiful, readable cards.

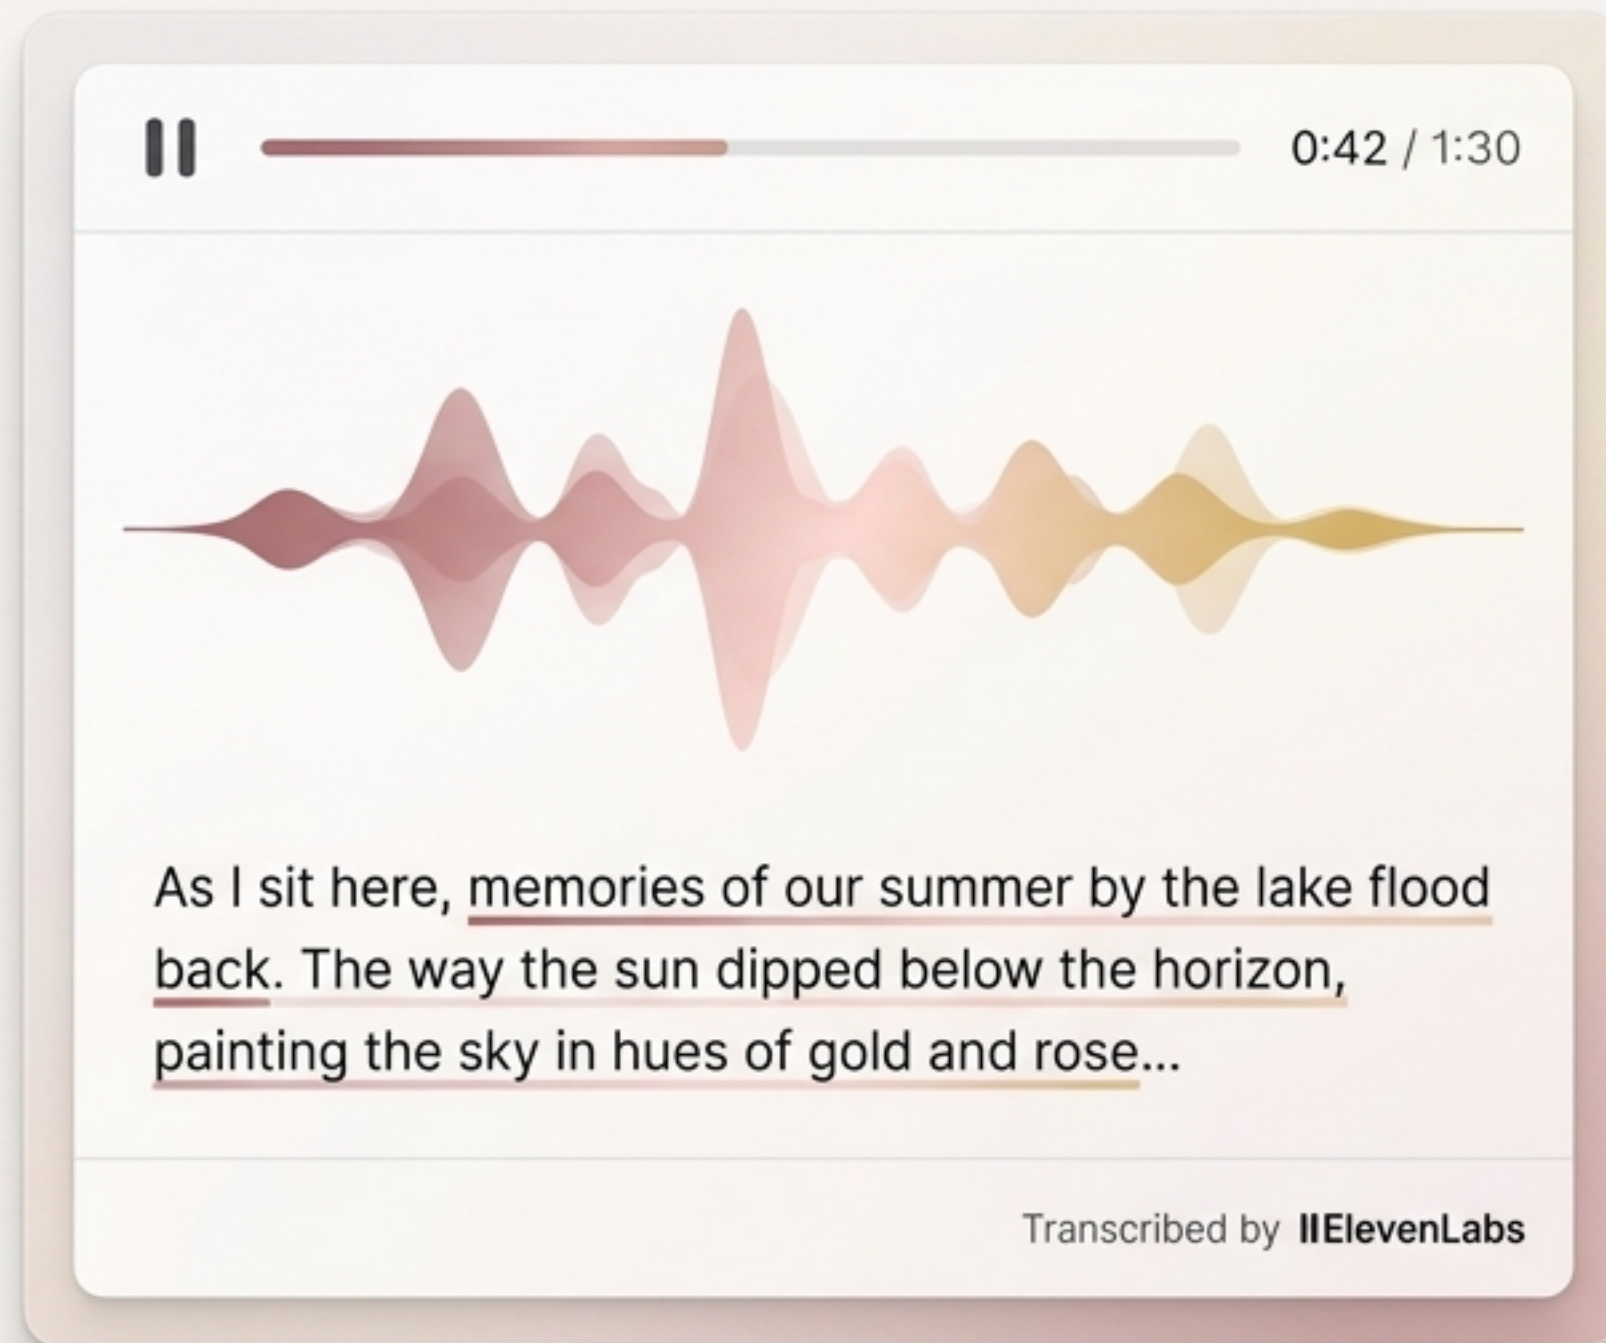

Share Your Life in Pictures, with Grace and Simplicity

- **Effortless Upload:** Drag-and-drop or click-to-select your photos. Add titles and descriptions to tell the full story.
- **Interactive Gallery:** Photos are displayed in a responsive grid layout with hover-to-preview functionality.
- **Immersive Viewing:** A full-screen modal allows for distraction-free viewing of large images.
- **Safe Deletion:** A clear confirmation step prevents accidental loss of precious memories.

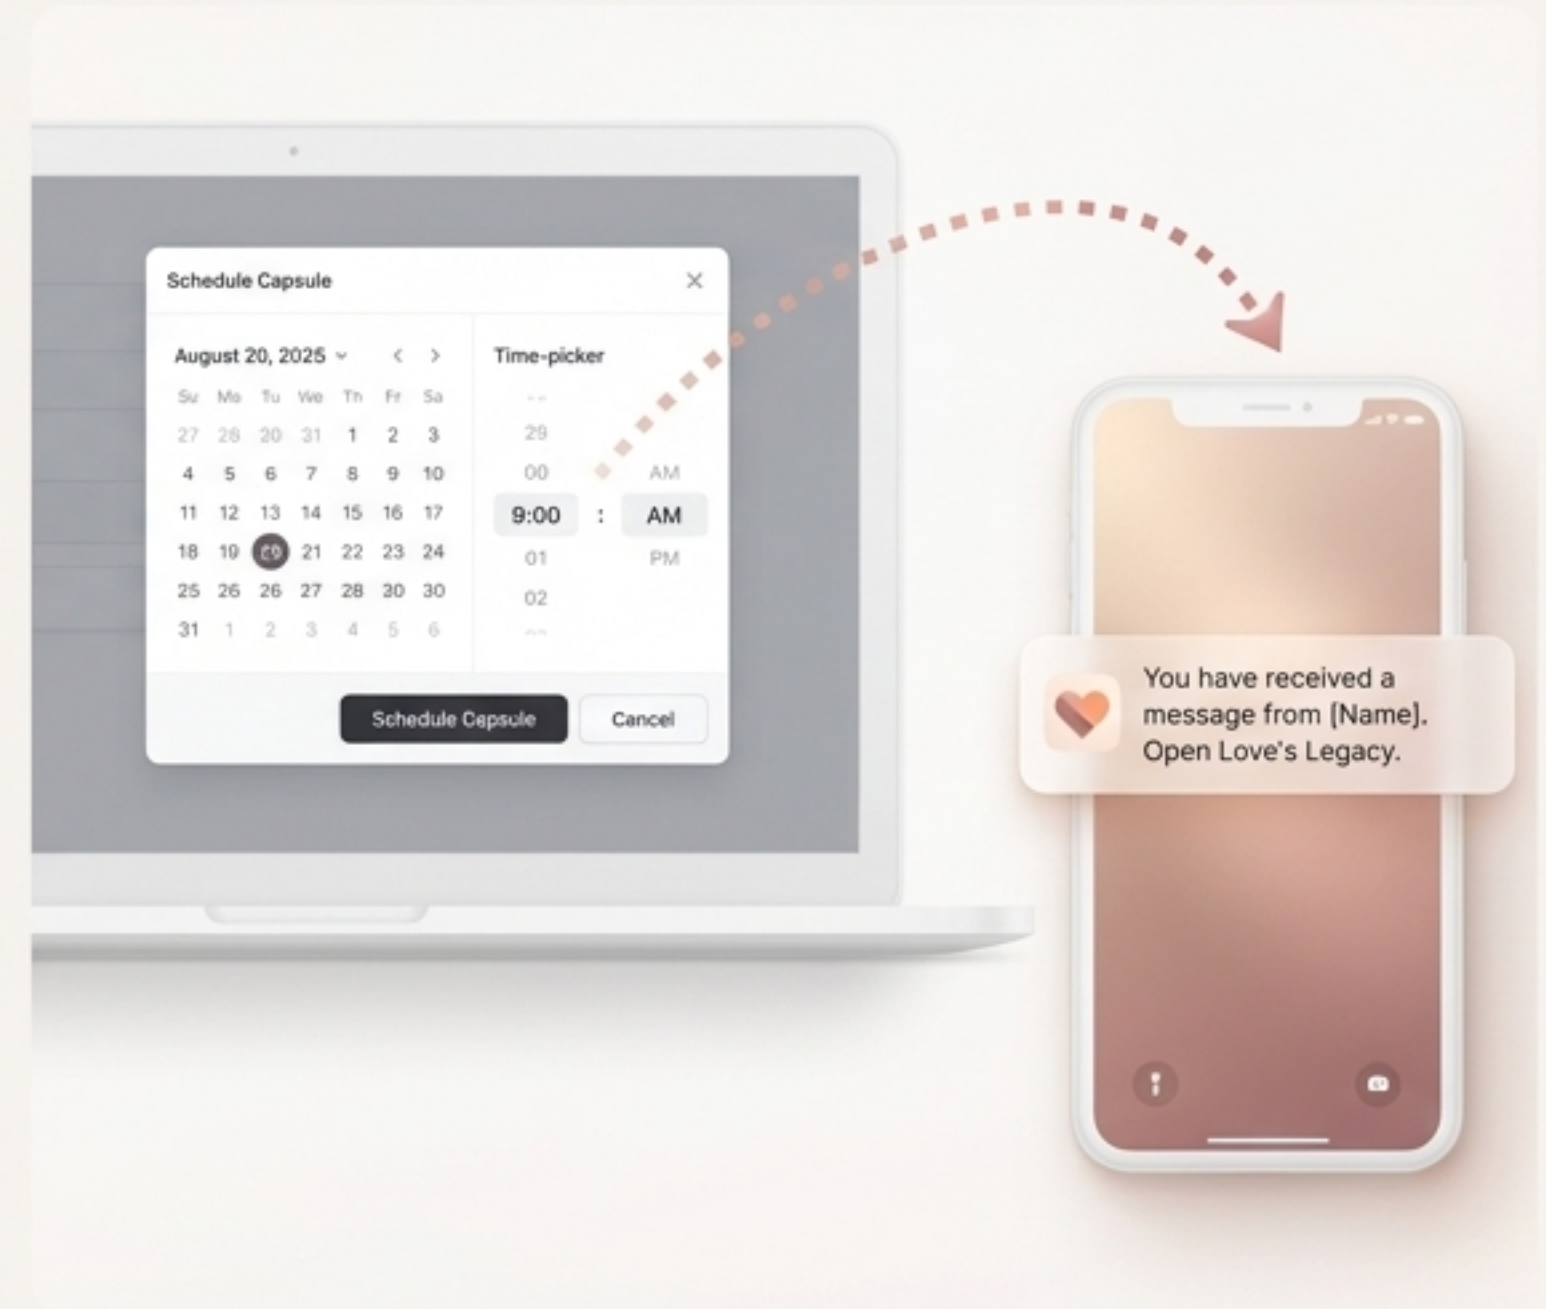

Let Them Hear Your Voice, Forever

- **Native Browser Recording:** High-quality audio capture using the Web Audio API, with a real-time duration display and visual indicator.
- **AI-Powered Transcription:** Integration with the ElevenLabs API automatically transcribes speech to text, making your stories accessible.
- **Integrated Playback:** Simple, intuitive controls to play and pause the recording alongside the text.

A Message Delivered at the Perfect Moment

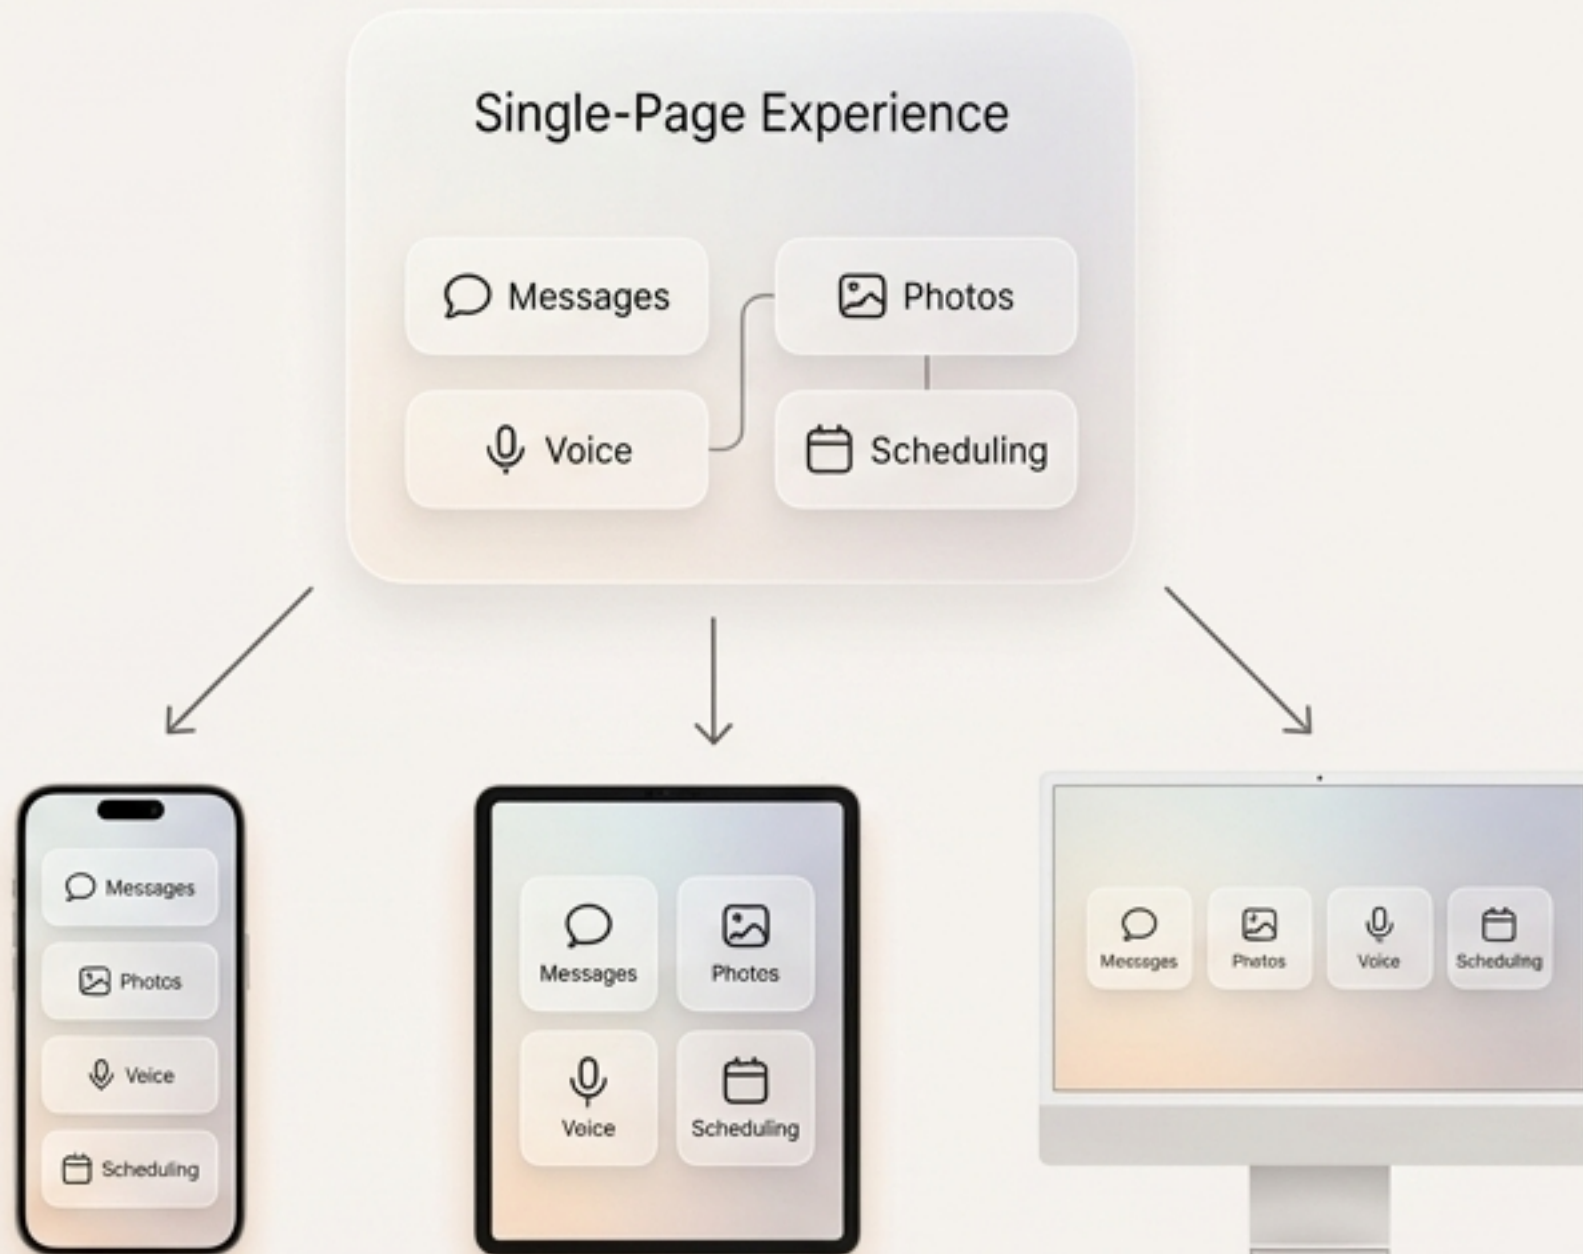

-  **Precision Scheduling:** Use a simple calendar and time-picker to schedule delivery for anniversaries, birthdays, or any significant future date.
-  **Secure, Shareable Links:** Generate a direct, publicly accessible link (e.g., `/share/{type}/{id}`) for each capsule.
-  **No Account Needed:** Recipients can view messages, photos, or voice recordings without needing to sign up, ensuring a seamless experience.
-  **Private & Secure:** All content is managed via local storage, ensuring privacy until it's ready to be shared.

Built with Intention, From the Inside Out

Core Architectural Principles

- 🌸 **Single-Page Layout:** All functionality is integrated into one page for a fluid, focused experience with no jarring navigation.
- 🌸 **Responsive by Design:** The layout gracefully adapts from a stacked mobile view to a 2-column tablet grid and a 4-column desktop layout.
- 🌸 **Instantaneous Actions:** The single-page design means operations are immediate, with no page reloads.
- 🌸 **Optimized & Compact:** A design that maximizes space and efficiency without feeling cluttered.

The Modern Toolkit Behind a Seamless Experience

Technology Area	Selected Technology
Frontend Framework	  React 18 + TypeScript
Build Tool	 Vite 6
Animation Engine	 Framer Motion
Icon Library	 Lucide React
Audio Recording	Web Audio API
State Management	React Hooks
Styling	CSS-in-JS + Responsive Design
Package Manager	pnpm
Code Quality	ESLint + Prettier

Ready to Launch: Get Started in Minutes

Vercel Deployment (Recommended)

One-click deployment for a production-ready instance.

Live Demo URL:

<https://love-legacy-k0ch6g638-jhfnetboys-projects.vercel.app>

Local Development

Prerequisites

- Node.js $\geq 18.0.0$
- pnpm $\geq 8.0.0$

Instructions

```
pnpm install && pnpm dev
```

Enabling Full Functionality

For voice-to-text transcription, an ElevenLabs API key with `speech\_to\_text` permissions is required. This may require a paid plan. Simply create an account on elevenlabs.io, upgrade to a suitable plan, and add your API key to the application configuration.

A Project Defined by Its Heart and Its Craft

Emotional Value: A meaningful tool to help people transmit their final words of love and remembrance.

Exquisite Design: A warm, polished, and intuitive user experience.

Modern Technology: Built with a state-of-the-art frontend stack and best practices.

Effortless Deployment: Easily deployable to Vercel for global access.

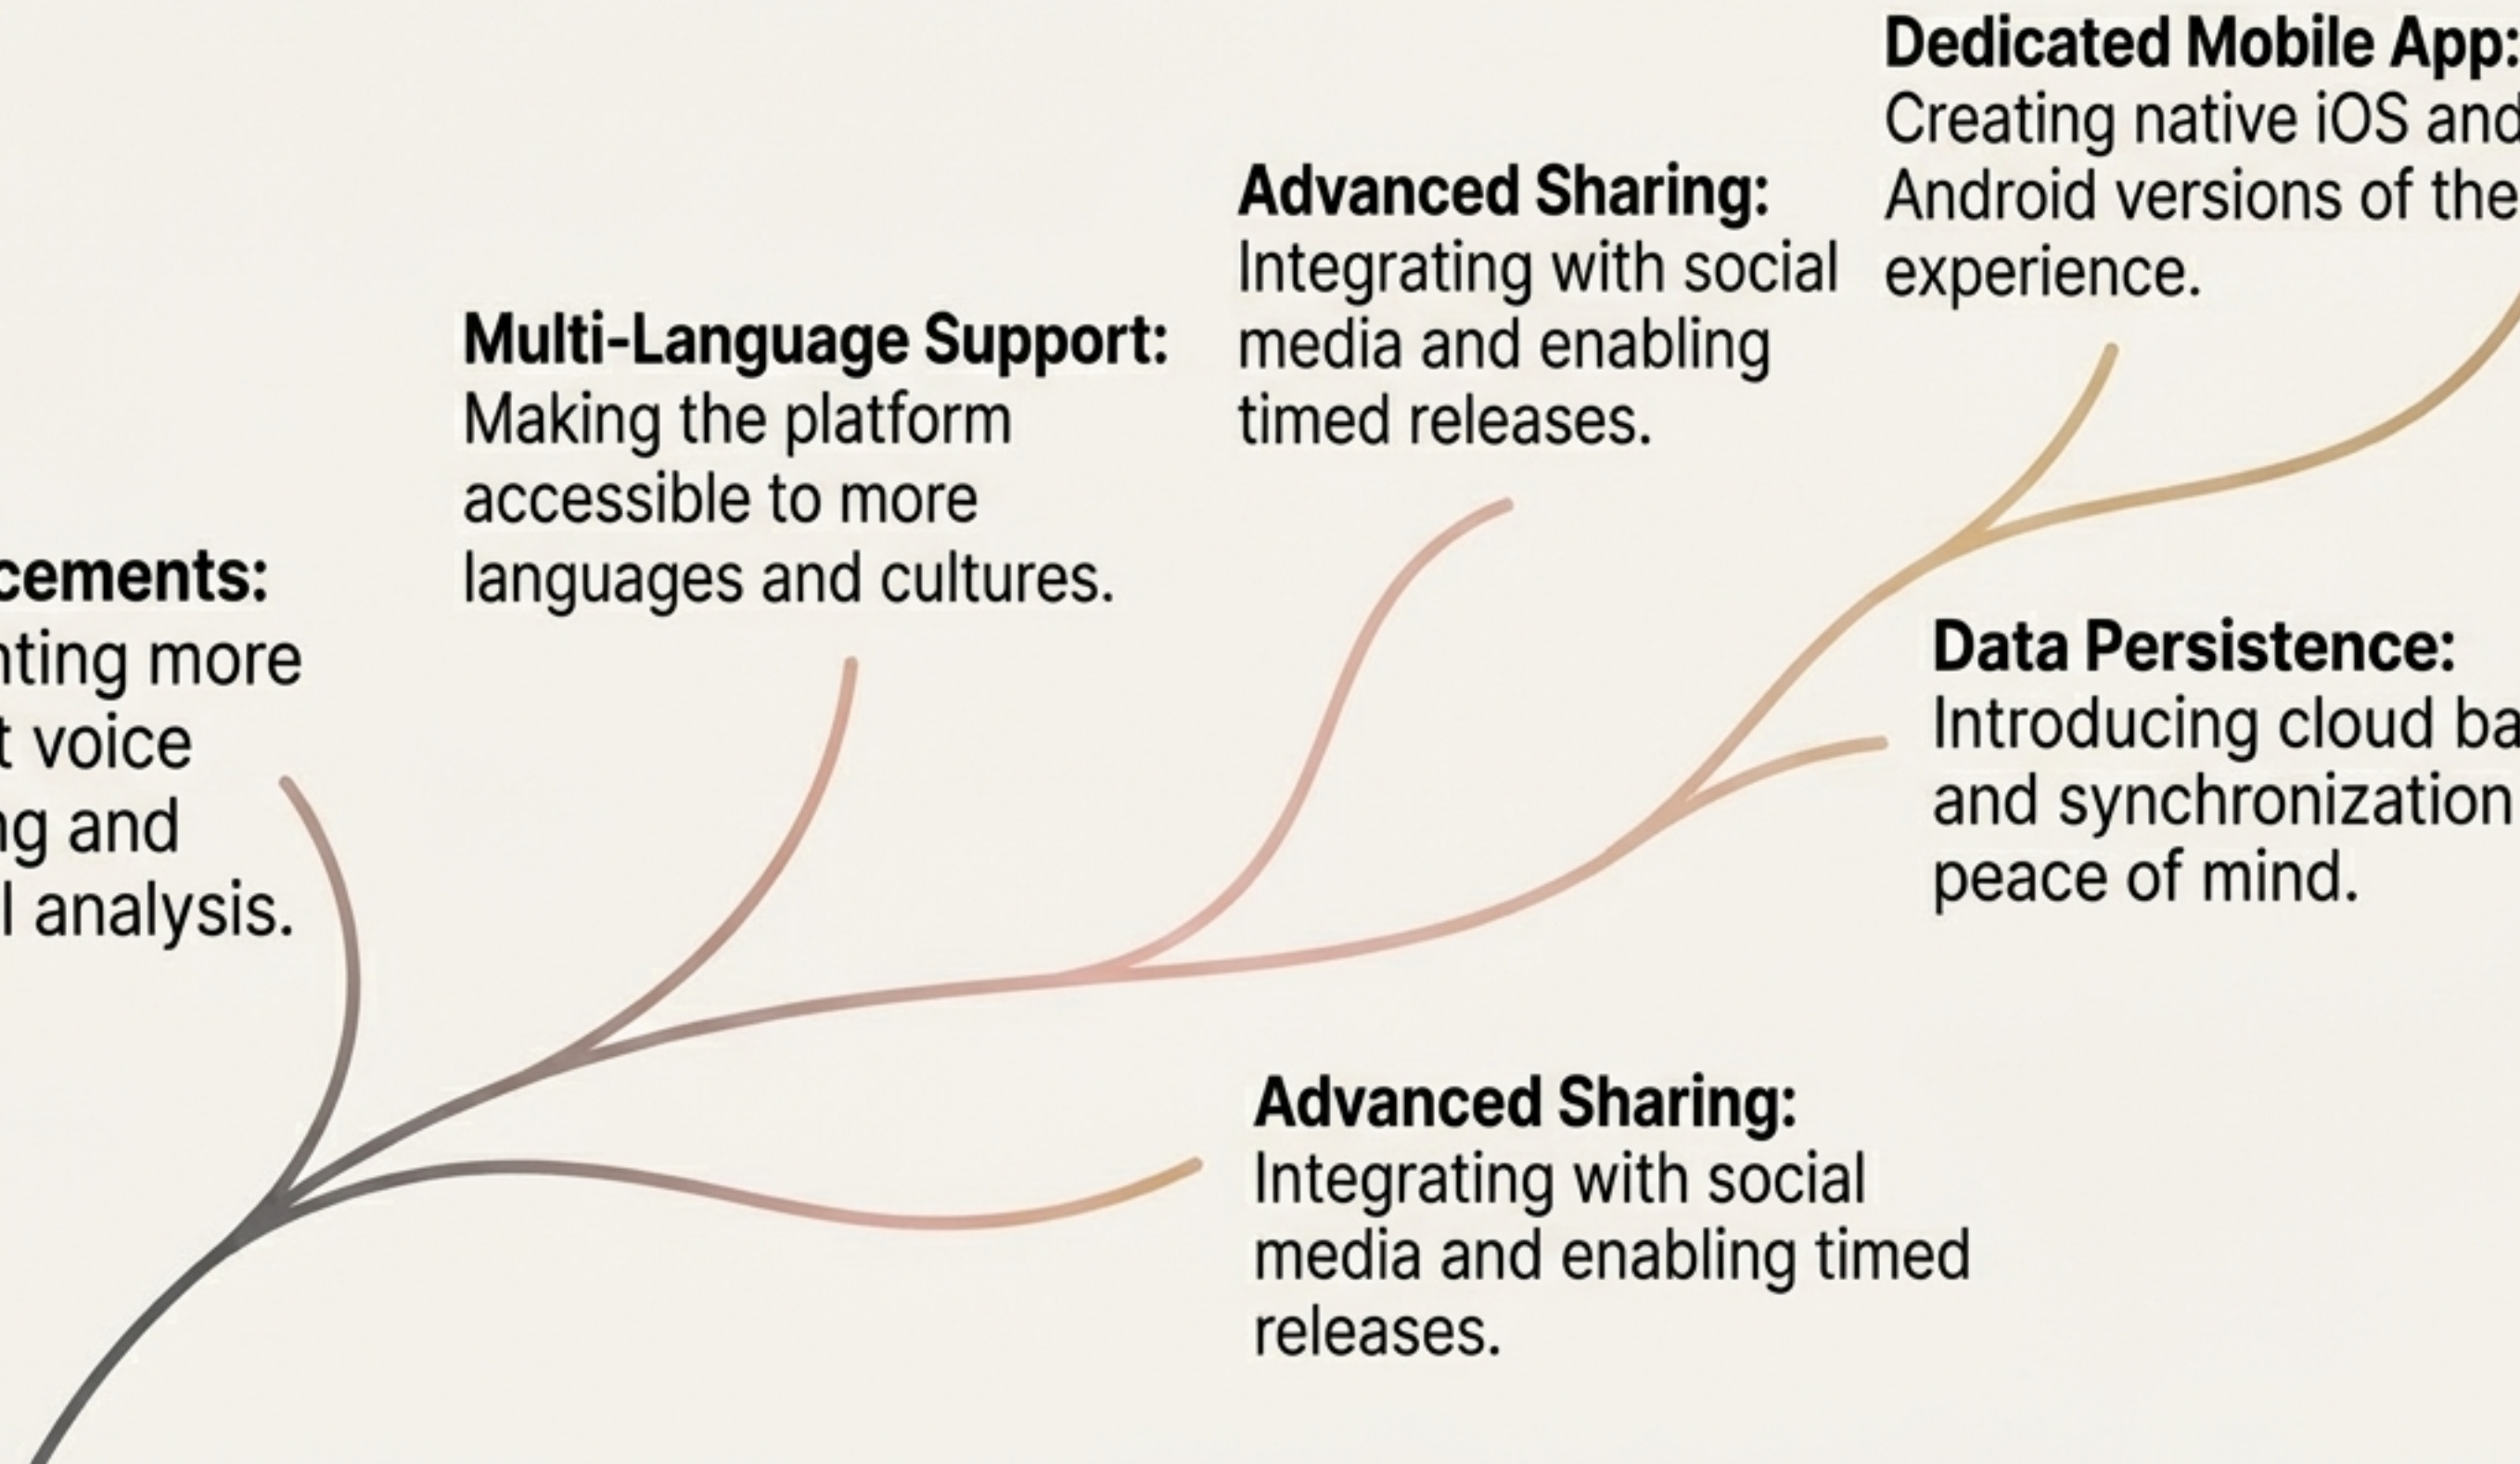

User-Friendly: An intuitive single-page design that's easy for anyone to use.

Privacy First: Leverages local storage and a secure sharing mechanism to protect user data.

The Road Ahead: Evolving the Legacy

A diagram illustrating the future evolution of a legacy system. A single path on the left branches out into five distinct paths, each leading to a specific enhancement. The paths are represented by curved lines of varying shades of brown and orange, creating a sense of movement and direction. The enhancements are listed in bold text, each followed by a brief description of the goal.

AI Enhancements:
Implementing more intelligent voice processing and emotional analysis.

Multi-Language Support:
Making the platform accessible to more languages and cultures.

Advanced Sharing:
Integrating with social media and enabling timed releases.

Dedicated Mobile App:
Creating native iOS and Android versions of the experience.

Data Persistence:
Introducing cloud backup and synchronization for peace of mind.

Advanced Sharing:
Integrating with social media and enabling timed releases.

Love's Legacy: Pass on Love, Across Time.

Using technology to deliver warmth and ensure remembrance lasts forever.
